1. HOW TO MEASURE

- Measure yourself from just above your breast down and around your back and back up to above other breast.
- Remember to measure in some drape.
- Also make sure you do not add too much drape because then the back goes too low.
- Also measure how long you would like the wrap to be.

Example:

- Around measurement is 150cm
- Length measurement is 75cm
- That means you will need a piece of fabric 150cm x 75cm
